A 2026 Datathon experience

OCHA

Problem

Facing uncertainty

OCHA

Decisions under time constraints

**Overwhelming data availability
in heterogenous formats**

**Insights are missed only using
basic visualization**

Platform

Levaraging any data

OCHA

SETUP

2) Choose target, treatments, and encodings

Model type	Target column	Treatment variables	Correlation method	Top features
Bayesian Ridge	CIVR - Inc	Country, P... 5 selected	Spearman	Top 5

CountryDetected type: categorical	One-hot	
BudgetDetected type: numeric	Numeric (scaled)	
ProjectsectorDetected type: multi_hot_literal	Multi-hot (literal list)	
Total PeopleDetected type: numeric	Ordinal	
CIVR - PrevDetected type: numeric	Numeric (scaled)	

Train model

MODEL READY

Training complete with Bayesian Ridge. You can inspect diagnostics and run inference below.

“When first looking into into this project we wasted so much time exploring data that simply does not correlate“

Impact

Assist decision makers

OCHA

**Enabling people with low-tech
background**

**Instant insights using flexible
models on any dataset**

**Quick validation to follow up with
in depth analysis**
